TOOTHPASTES

WHITENING TOOTHPASTE

There are 2 ways to whiten teeth – mechanically and chemically, our whitening toothpaste formula combines the two for the best results

- Mechanically – scrub stains from the teeth using whitening silicas
- Chemically – dissolves stains on teeth using naturally derived enzymes (papain, bromelain)
- PVP also to stop stains sticking to teeth
- Betaine (SLS Free) is derived from coconuts, it is a milder alternative to Sodium Lauryl Sulphate
- Fluoride and fluoride-free options.

ECO FRIENDLY TOOTHPASTE

We have created a high-performance eco toothpaste that contains a blend of natural peppermint flavour and natural sweetener. It doesn't have any additional colourings such as titanium dioxide and has been formulated in a way that means it is self-preserving so no additional harsh preservatives are added

- Natural formula
- SLS and paraben free
- Vegan friendly, cruelty free
- Available in a sugarcane or fully recyclable tube
- Natural sweetener and flavoring options
- Fluoride and fluoride-free option
- Natural whitening ingredients available papain, bromelain etc.

SENSITIVE TOOTHPASTE

We have combined the best remineralising and soothing ingredients to create the ultimate sensitive toothpaste

- We can introduce Potassium Citrate and Hydroxyapatite adding repairing benefits
- Betaine (SLS Free) is derived from coconuts, it is a milder alternative to Sodium Lauryl Sulphate
- Fluoride and fluoride-free options
- We can add soothing ingredients such as Aloe Vera
- Vast flavor options and added ingredients such as coconut oil and vitamin E.

CHARCOAL TOOTHPASTE

Our charcoal toothpaste not only removes stains, but prevents stains from sticking to teeth to achieve and maintain a healthy white smile

- A blend of silica to provide a perfect mix of whitening and polishing properties
- We can add PVP added to stop stains sticking to teeth and added activated charcoal to help remove stains
- Betaine (SLS Free) is derived from coconuts - a milder alternative to Sodium Lauryl Sulphate
- Various flavor and colour options e.g. black to match charcoal
- Low abrasion rate meaning no damaging effect on the enamel and surface of the teeth.

EVERYDAY TOOTHPASTE

Our everyday mouthwash formula is great for leaving the mouth clean and minty fresh. We can add almost anything to our existing formula to make it your own

- Optional fluoride
- Optional colour change
- Optional flavour change
- Premium flavor blend
- Long lasting cool after taste.

BAD BREATH & GUM CARE TOOTHPASTE

Our bad breath toothpaste helps prevent gum issues, protect teeth and promotes good oral hygiene

- With chlorhexidine to help care for gums
- Green tea - breath freshening.

Our bad breath toothpaste is made up of the highest quality ingredients helping eliminate bad breath

- Zinc citrate - Anti-microbial and anti-inflammatory effects and its ability to reduce or inhibit the formation of dental plaque and tartar
- Green tea extract - reduces oral bacteria to prevent bad breath.

MOUTHWASHES

WHITENING MOUTHWASH

Whitening Mouthwash is the perfect addition to any whitening collection.

We can formulate mouthwash to do more than just prevent cavities, with the right ingredients our mouthwash will give your consumers a brighter and healthier smile while seamlessly fitting into their morning oral care routine.

KEY INGREDIENTS

- PVP Peroxide** Creates a protective layer on teeth Available at maximum concentration for a cosmetic mouthwash 0.1% Hp.

FRESHER BREATH MOUTHWASH

Using Zinc Citrate in to neutralise volatile sulphur compounds released by the anaerobic bacteria this mouthwash can help users regain confidence lost through concerns related to bad breath.

KEY INGREDIENTS

- Zinc Citrate** Anti-microbial and anti-inflammatory effects and its ability to reduce or inhibit the formation of dental plaque and tartar. Also, controls bad breath through both its anti-microbial action and the neutralisation of volatile sulphur compounds responsible for malodour.
- Green Tea** Reduces oral bacteria to prevent bad breath.

GUM CARE MOUTHWASH

Protect gums with an advanced gum protection mouthwash formula for stronger, healthier gums.

KEY INGREDIENTS

- Citrus Preservative** Promotes dental health with its antioxidant and anticariogenic agent properties. The preservative reduces the growth of oral/dental bacteria and prevents cavities encouraging better oral health.

REMINERALISING MOUTHWASH

Our premium Hydroxyapatite formula helps to remineralise teeth, reduce sensitivity and give a whiter brighter appearance. This mouthwash gives the mouth an amazing feel, giving the impression of an immediate effect from the first use.

KEY INGREDIENTS

- Micro Hydroxyapatite** High levels for a remineralising effect
- Potassium Nitrate** To prevent cavities and to reduce pain from sensitive teeth
- Fluoride Xylitol** To strengthen tooth enamel With antibacterial properties.

EVERY DAY MOUTHWASH

Our everyday mouthwash formula is great for leaving the mouth clean and minty fresh.

KEY POINTS

- Optional fluoride
- Optional colour change
- Premium flavor blend
- Long lasting cool after taste.

GOLD & SILVER PARTICLE MOUTHWASH

We have created the most premium and luxurious gold and silver oral care range, for the ultimate dental care experience. Infused with gold and silver particles, this range is desired by many!

GUM CARE MOUTHWASH

Concentrated mouthwash is a solution that needs to be added to water to create a mouthwash.

- Concentrated mouthwash is an eco-friendly option for those that want to reduce their carbon footprint
- Concentrated mouthwash has all the great ingredients a mouthwash should contain minus the water. This is great for the environment because it means that no unnecessary water is being shipped around the world
- Lasts a lot longer than the average mouthwash bottle, meaning consumers will not be buying as many plastic bottles!
- Refill biodegradable mouthwash bottles are great for topping up glass bottles that customers can keep for a long-life span
- Refilling glass bottles with lighter biodegradable ones is a great eco-friendly swap to and will reduce your carbon footprint.

ECO-FRIENDLY PLASTIC

A new development in plastic technology has allowed for the potential to offer a plastic bottle while having an eco-friendlier message. During the manufacturing process of creating the plastic a new additive is added that will reduce the biodegrade time of the bottle from 1000 years to just 2-5 years (exact time can be tested before launch).

If the bottle ends up in landfill, compost or worst of all sea water it will break down rapidly. This is not dependant on UV light like some bio plastics so no matter how it is disposed of there is a much quicker break down.

TOOTHPASTE TABLETS

TOOTHPASTE TABLETS

Toothpaste tablets contain the perfect amount of 'toothpaste' in each tablet, without the unnecessary water. Great for environmentally conscious consumers!

- With a large focus on the environmental problems toothpaste packaging is causing, eco-friendly tablets are becoming more and more popular
- These tablets contain the main ingredients of a regular toothpaste but have the water removed, meaning you do not have to ship unnecessary water around the world
- Our eco-friendly tablet packaging options are biodegradable pouches, glass jars or aluminium tins. We can also mix between tins/jars to keep and pouches for refills
- Your chosen package can be filled to meet your requirements – 60 tablets is a one month supply of toothpaste tablets (using twice a day), we can fill any number if you wish to have larger refills of any number.

We have a range of toothpaste and mouthwash tablets:

- Every day whitening toothpaste tablet
With a peppermint blend
- Sensitivity toothpaste tablet
With a spearmint blend
- Charcoal whitening toothpaste tablet
With a peppermint blend
- Remineralising and whitening toothpaste tablet
With a double mint blend

(All formulas are available with fluoride or fluoride free).

MOUTHWASH TABLETS

DISSOLVING MOUTHWASH TABLETS

Dissolving mouthwash tablets allow brands to launch an eco-mouthwash that completely removes plastic and removes water from the formula. This massively reduces the environmental impact and carbon footprint of mouthwash. The tablets are very easy to use, simply drop 1-2 tablets in 10ml of water, wait approximately one minute for the tablet to dissolve and then use like any other mouthwash.

CHEWABLE MOUTHWASH TABLETS

Chewable mouthwash tablets are a fantastic eco-friendly option – each tablet contains the perfect amount of “mouthwash” for a single use. Just put one in your mouth and chew and then the tablet will turn in to a mouthwash in your mouth. Use it as you would a regular mouthwash and spit out after use.

There are a number of active ingredients added to the mouthwash tablets to provide a great user experience and to give all of the benefits of regular mouthwash – all whilst cutting down on the amount of water in the product and removing plastic for the product packaging. These tablets are also alcohol-free and contain natural flavours and sweeteners.

DENTAL VITAMINS

DENTAL VITAMINS

Our dental vitamin supplements for teeth and gums have been specially formulated to help promote strong, healthy teeth and gums. As well as containing our specifically selected blend of vitamins and minerals to help care for teeth these chewable tablets also contain additional dental ingredients to help remineralise your teeth, reduce plaque acids, regulate the pH in the mouth and freshen your breath.

A lot of dental supplements on the market either contain sugar or contain something that will eventually turn into sugar and are therefore actually potentially bad for the health of your teeth. Our innovative new tabs not only contain vitamins and minerals to help strengthen teeth from within but because you chew them you get additional benefits as the active ingredients start to work straight away in your mouth.

FORMULATION

- Vitamin D – Helps the body absorb calcium while boosting bone mineral density
- Vitamin C – Helps strengthen your gums and the soft tissue in your mouth
- Vitamin A – Helps your mouth heal quickly
- Vitamin K – Helps support bone strength
- With added calcium
- With sodium bicarbonate and natural peppermint oil to help freshen breath
- Contains anti-bacterial xylitol to help provide an anti-bacterial effect.

WHITENING PRODUCTS

PEROXIDE & PEROXIDE-FREE WHITENING GEL KITS

Our peroxide whitening gel contains stable peroxide with added ingredients for the best whitening experience

- 6% Hydrogen Peroxide, 10% Carbamide peroxide or 16% Carbamide peroxide
- Neutral pH
- Added potassium nitrate, calcium & fluoride
- With natural Aloe Vera to soothe the gums.

- Peroxide free whitening gel with unique oxidising ingredients to help whiten teeth
- Using high quality ingredients users can achieve not only a whiter smile, but a healthy, white smile
- High strength of the formula with maximum results
- Whitening gel can be filled in unique biodegradable syringes if required.

PAP WHITENING STRIPS

Our pre-loaded PAP whitening strip technology is a simple and effective way to whiten.

- Strips with pre-applied whitening gel
- With a unique oxidising whitening ingredient
- Great for whitening top ups

All of our PAP whitening strips have been clinically tested, you can make claims on your whitening strips with confidence.

- Whitens up to 6 shades after 14 treatments
- Whitens up to 2 shades after 1 use
- Noticeable whitening after just 1 treatment.

PAP DISSOLVING WHITENING STRIPS

Our revolutionary dissolving strip technology is a simple, quick and convenient way to whiten teeth on the go. PAP based for the most effective whitening result without using peroxide.

- Our whitening strips are safe on enamel and help minimise tooth sensitivity
- Dissolves in just 20 mins
- Refreshing mint flavour
- Easy one step process

All of our PAP dissolving whitening strips have been consumer tested, so you can make claims on your whitening strips with confidence.

- Whitens up to 7 shades after 14 treatments
- Whitens up to 5 shades after 7 treatments
- Noticeable whitening after just 3 treatments
- Achieves equivalent whitening to dentist prescribed 6% hydrogen peroxide kits.

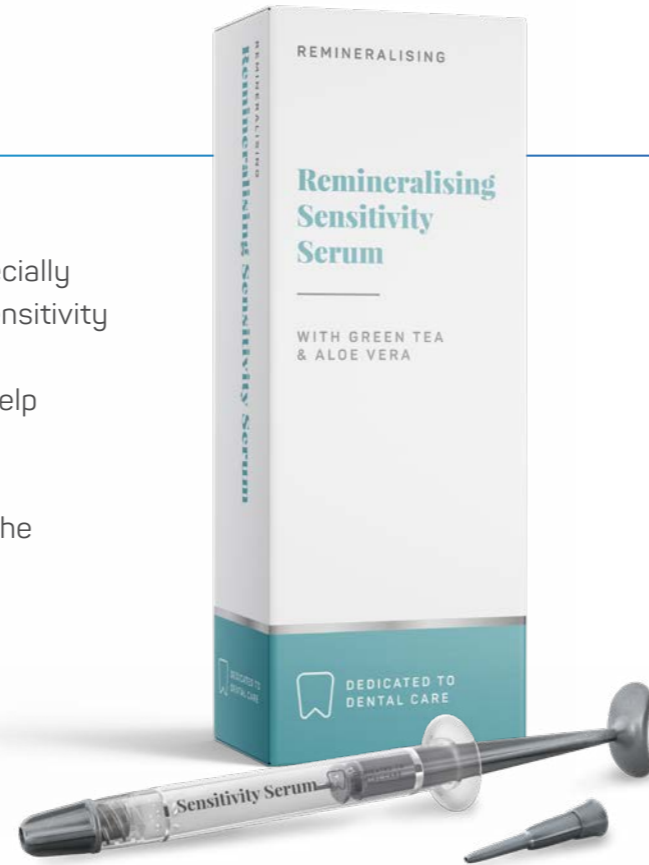

ADDITIONAL ORAL CARE PRODUCTS

SENSITIVITY SERUM

Developed and formulated by UK dentists, the remineralising sensitivity serum uses a blend of specially selected ingredients which helps to reduce tooth sensitivity and remineralise teeth.

- Formulated with hydroxyapatite and fluoride to help remineralise teeth
- Other key ingredients include potassium nitrate to prevent tooth sensitivity and xylitol to inhibit the growth of bacteria.

FLOSS

Perfect for removing plagues, reducing cavities and preventing gum diseases. Our floss is made of different material such as silk, the most natural existing raw material, or PLA and PA 10.10. To make the floss even smoother, you can add oils such as cocoa butter, jojoba or avocado oil. We also have a wide range of aromas and oils available so you can choose one or combine many to make your own unique product.

BREATH SPRAY

Perfect for keeping the feeling of fresh breath throughout the day.

- We can formulate new and exciting private label breath spray that will be as unique as your brand. The breath spray not only freshens breath but also has dental benefits. Once we have the perfect formula we can then make your breath spray almost any flavour or size that you desire.
- With CosmoLab you have the benefit of formulating high quality products at a very low minimum order quantities, such as 3000pcs for breath spray.

TONGUE CLEANER

Xxxxxxxx

CHILDREN'S ORAL CARE

CHILDREN'S TOOTHPASTE

We can help you design the perfect kids toothpaste with low foaming ingredients, natural sweetener, bright colours and the following flavours

- Citrus Cola
- Berry burst
- Butter mint (Mild mint).

CHILDREN'S TOOTHPASTE TABLETS

Toothpaste tablets contain the perfect amount of 'toothpaste' in each tablet, without the unnecessary water. Great for environmentally conscious consumers!

KEY INGREDIENTS

- We have formulated kids' toothpaste tablets to be low foaming with xylitol, natural stevia sweetener and remineralising hydroxyapatite
- Strong teeth, healthy gums, fresh breath
- Cruelty free, vegan and not tested on animals.

CBD PRODUCTS

CBD TOOTHPASTE

Experts agree, CBD toothpaste promotes oral health as non-psychoactive cannabinoids have shown to be an antiseptic, analgesic, anti-inflammatory, and antibacterial agent. Also, CBD is bactericidal in relation to streptococci, meaning it kills the specific type of bacteria responsible for most cases of tooth decay.

- Infused with CBD
- Contains natural flavour and natural sweetener
- With soothing aloe vera and vitamin E
- Contains 1450ppm fluoride
- With mild coconut derived foaming ingredient.

CBD CHILDREN'S TOOTHPASTE

Formulated with our special blend that naturally removes surface stains, whiten teeth, helps remove plaque, and is enamel safe. CBD toothpaste for kids also comes with or without fluoride, depending on your preferences.

- Different fluoride concentrations are available for kids toothpastes – typical fluoride concentrations are 0ppm fluoride for babies, 1000ppm fluoride for toddlers and up to 1450ppm fluoride for older kids
- Gently cleans with brushing
- Strong teeth, healthy gums, fresh breath
- Cruelty free, vegan and not tested on animals.

CBD TOOTHPASTE TABLETS

CBD Tooth Tablets are formulated without water or plastics making them our eco-friendly choice for our most conscience customer. Once the tablet comes in contact with water from brushing teeth, they quickly turn to liquid and deliver their benefits for great oral health.

- Infused with CBD
- Contains natural flavour and natural sweetener
- Plus added xylitol
- With soothing aloe vera and vitamin E
- With mild coconut derived foaming ingredient.

CBD CHEWABLE TOOTHPASTE TABLETS

CBD mouthwash chewable tablets will sooth your oral cavity, strengthens the gums, protects the teeth and refreshes the breath.

- Infused with CBD
- Contains natural flavour and natural sweetener
- With green tea and xylitol
- With mild coconut derived foaming ingredient.

CBD BREATH SPRAY

Super easy to consume! If you want a quick and effective way to administer CBDs, then our CBD breath spray is the way to go. Ideal for those who aren't really fond of tablets, CBD breath spray will leave you with fresh minty breath around the clock.

- Infused with CBD
- Contains natural flavour and natural sweetener
- Plus added xylitol
- With soothing aloe vera and vitamin E.

CBD OIL

CBD free from THC is a powerful antioxidant, anti-inflammatory agent that boosts skin health and eliminates anxiety. Take one drop once or twice daily.

- Pure CBD oil for use as a supplement.

CBD MOUTHWASH

CBD Mouthwash uses an antibacterial formula that protects the teeth, refresh's your breath and improves overall oral hygiene.

- Infused with CBD
- Contains natural flavour and natural sweetener
- Plus added xylitol
- With soothing aloe vera and vitamin E.

The background features a series of overlapping, wavy lines in various shades of blue, creating a sense of depth and movement. The lines are most prominent in the lower half of the image, where they form a complex, layered pattern that resembles a stylized landscape or a digital wave.
